- Competitive Pricing

# Remote-location high quality digital audio recording

ESA can record your event or performance with 24-bit/96 KHz digital quality

- Up to 24 tracks
- High-quality microphones including:
  - AEA R84's
  - Audio Technica AT4051a's
  - Rode K2's and NT1's
  - Crown PZM 30D's
- High-quality microphone preamps including:
  - Focusrite ISA428 and OctoPre
  - ART DPS II's
- Self-contained recording setup

# Remote-location high quality digital audio recording

Multiple stereo microphone techniques can be used simultaneously for a full range of production options during mixing and mastering:

- X-Y w/Figure 8 pattern
- X-Y large and/or small diaphragm cardioid
- M+S
- PZM Boundary recording
- Direct

# Multi-track digital recording

- Services performed at ESA or at your location
  - Sonar Producer 5.0 running on Athlon64
  - Fostex D2424-LV used for remote-location recording
- Up to 24-bit/96 KHz digital recording
- 24+ track capability
- Wide range of DirectX and VST digital effects and parametric EQ

# Multi-track digital recording

- Full selection of hardware preamplification, compression, and effects
- Many in-house instruments available for clients to use
  - Guitars and basses
  - Acoustic drum kit
  - Extensive collection of virtual vintage keyboards and synthesizers
  - Wide range of samplers and sampling options
- World-class drum and instrument recording
- Full backup to DVD+r

# Mixing and mastering

## Digital or analog mixing

- Digitally mix direct to stereo file at up to 24-bit/96 KHz resolution with full automation
- Mix through 24 channel Mackie analog console to DAT or Fostex D2424-LV

# Mixing and mastering

Let ESA do your mastering or use a third party

- ESA can master your creations to perfection
  - High quality digital mastering tools from Sonitus, Waves, etc.
  - Detailed CD images ready for factory duplication created using Sony CD Architect 5.0
- Pre-mastered mixdowns can be exported to multiple formats for third party mastering

# Voice-over recording

- Full selection of large diaphragm condenser microphones for impeccable vocal detail
- Sonar Producer 5.0 used for alignment of voice-over with other audio material
- Vocal files provided to client in a number of formats
- Full production can be finalized to CDr ready for factory duplication

# Audio production

- Chris Fournier, owner and operator of ESA, has produced and sold 8 albums worldwide and can produce your recordings to perfection (see [www.fonya.com](http://www.fonya.com) for more info on Chris' music)
- Chris will work with you to understand your artistic vision and bring it to reality with incredible quality
- Production services available for both studio-based albums and live event recordings

# Studio musician services

Chris can assist the client with the performance of tracks requiring

- Electric bass guitar
- Electric lead and rhythm guitar
- Synthesizers
- Acoustic and programmed drums

# Music composition

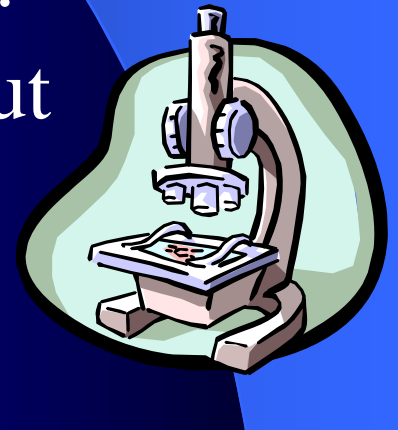

Chris has composed large amounts of music over the last several years (see [www.fonya.com](http://www.fonya.com)) and will contribute compositions for use as:

- Commercial jingles
- Background music/effects for books-on-CD/tape, workout videos, etc.
- Video game music/effects
- TV/Movie soundtracks

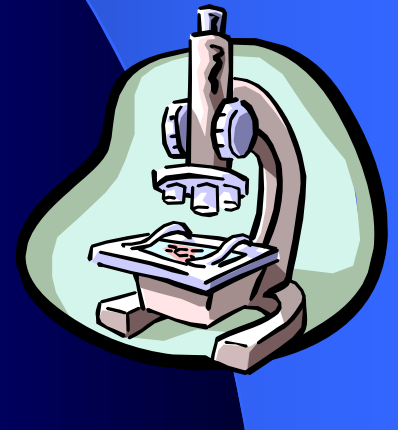

# LP and cassette restoration

- 24-bit/96 KHz capable phono and cassette preamp for importing your treasured record albums and cassette tapes
- Noise-removal and audio restoration software from Waves, Steinberg, etc.
- Extreme attention to detail throughout the restoration process
- Restored recordings written to audio CDr for immediate listening enjoyment

# Lodging

- A variety of excellent hotels and motels are available in Loveland (typically a 30 minute drive from ESA)
  - Check <http://hotel-guides.us/colorado/loveland-co-hotels.html> for more information
- Numerous camping opportunities are nearby
  - Carter Lake, only 0.5 miles away from ESA's door, has 3 beautiful campgrounds

# Competitive Pricing

All of the services described in this presentation are available for only \$40/hour!

- All time spent in the process of performing a service will be charged this rate
- Minimum 4 hour charge (\$160) for all live-event and studio recording sessions
- Travel expenses billed to client for any services more than 50 miles from Loveland, Colorado
